

Software Engineering Institute

The SEI: Improving Software Engineering Practice

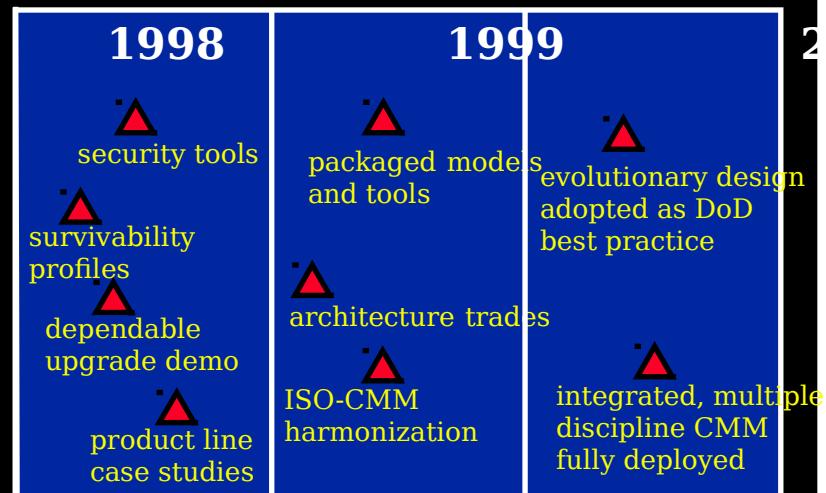

Impact

- CERT® team has resolved over 15 incidents and coordinates with more than 100 incident response teams worldwide
- Over 5000 organizations use the Capability Maturity Model™ for Software with 5:1 to 10:1 improvements
- Personal Software Process™ (PSP™) training resulting in 10X quality improvements (from industry trials)
- SEI's interactive online magazine cited as source of information on state of practice

New Ideas

- Creating framework to integrate multiple CMMs® (leverages software process improvement successes into other disciplines)
- Leveraging CERT® experience to address survivability of systems
- Engineering analysis of system attributes (including security) during design
- Techniques for evaluating and integrating COTS products into mission-critical systems

Schedule

® CERT and CMM are registered in the U.S. Patent and Trademark Office.

SM Personal Software Process and PSP are service marks of Carnegie
